

BOURGEOIS
TRANSLATIONAL
NEPHROLOGY
— SOLUTIONS —

*Independent
scientific advisory
and translational
research support.*

*Renal, cardiovascular and metabolic research
expertise for informed, biology-led R&D
decisions.*

THE VALUE I BRING

Independent, hands-on scientific input to strengthen translational strategy, interpret complex biology and help focus preclinical decisions

KEY EXPERTISE

- ❖ Renal physiology and nephrology
- ❖ Rare kidney diseases
- ❖ Acid-base homeostasis
- ❖ Translational and preclinical research
- ❖ Biomarkers and data interpretation

PUBLICATIONS

- ❖ 40 Peer-reviewed Publications

SCIENTIFIC ADVISORY SERVICES

- ❖ Translational strategy and study design
- ❖ Target validation and biological interpretation
- ❖ Preclinical research planning
- ❖ Biomarker strategy
- ❖ Experimental troubleshooting and data interpretation
- ❖ Scientific review and due diligence

SPECIALIZED TECHNICAL EXPERTISE

Available through appropriate academic and research platforms:

- ❖ Ex vivo isolated nephron microperfusion
- ❖ Renal phenotyping
- ❖ Microscopy, histology and RNAscope

FOUNDER (Registered office: CHE-424.168.538)

PD Dr. Soline Bourgeois, PhD

30 years of academic research experience, including 17 years at the Institute of Physiology, UZH
